NAESB Filing
Docket No. RP25-_____

Dear Ms. Reese:

Pursuant to Section 4 of the Natural Gas Act (“NGA”) and Part 154 of the Federal Energy Regulatory Commission’s (“Commission”) regulations thereunder, Northwest Pipeline LLC (“Northwest”) hereby submits for filing with the Commission the following revised tariff records related to the North American Energy Standards Board (“NAESB”) standards in its FERC Gas Tariff, Fifth Revised Volume No. 1 (“Tariff”):

Version	Description	Title
8.0.0	Eighth Revised Sheet No. 279-A	General Terms and Conditions – NAESB WGQ Standards and Electronic Communications
9.0.0	Eighth Revised Sheet No. 279-B	General Terms and Conditions – NAESB WGQ Standards and Electronic Communications
10.0.0	Ninth Revised Sheet No. 279-C	General Terms and Conditions – NAESB WGQ Standards and Electronic Communications

The tariff records are proposed to be effective on August 1, 2025.

Statement of Nature, Reasons, and Basis for the Filing

The purpose of this filing is to: (i) comply with Order No. 587-AA issued November 22, 2024, in Docket No. RM96-1-043¹ by submitting proposed tariff records to incorporate Version 4.0 of the NAESB Wholesale Gas Quadrant’s (“WGQ”) consensus standards, and (ii) seek renewal of a previously granted extension of time to implement electronic data interchange and electronic

delivery mechanism (“EDI/EDM”) data sets that have not currently been implemented by Northwest. In the Order, the Commission adopted Version 4.0 of the consensus industry standards, with certain enumerated exceptions, promulgated by NAESB’s WGQ.² The Order requires pipelines to file tariff records reflecting the changed standards by February 3, 2025, with an effective date of August 1, 2025.³

New and Deleted Reference Standards

To achieve compliance with the Order with respect to the NAESB WGQ’s Version 4.0 standards, Northwest is submitting revised tariff records that reflect the following additions and deletions of the following standards reflected in its Tariff in General Terms and Conditions (“GT&C”) Section 26.1 NAESB WGQ Business Practice Standards:

Renewal of EDI/EDM Extension of Time

In the Order, the Commission indicates it will continue its practice of requiring pipelines to seek renewal of previously granted waivers or extensions of time for each version of the standards the Commission adopts.⁴ In a letter order dated August 3, 2009, the Commission granted Northwest an extension of time to implement NAESB WGQ's Version 1.8 electronic data interchange and electronic delivery mechanism data sets within 90 days following the receipt of a bona fide request to make them available.⁵ In addition, Northwest's compliance filings to implement NAESB WGQ Versions 1.9, 2.0, 3.0, 3.1 and 3.2, the Commission again granted the same 90 day extension of time.⁶ Because the continuation of the extension of time is not automatic with the adoption of a new version of the standards, Northwest requests that the Commission renew the extension of time granted to Northwest in the previous orders with respect to the adoption of Version 4.0 of the standards. The number of data sets utilized by Northwest's customers or other parties continues to be limited and the resources required to develop, test and implement new or revised data sets is significant. To date, Northwest has not received a request to implement any of the data sets subject to the extension of time. The 90 day extension is requested to provide adequate time to develop and implement system changes following such a request. If circumstances allow for a request to be implemented sooner than 90 days following the request, Northwest will do so.

Currently, recognition of the 90 day extension of time is included in Section 26.2 of the GT&C of the Tariff. If the Commission continues to grant to Northwest a 90 day extension of time for Version 3.2, no change to Section 26.2 is necessary with respect to the amount of time granted to develop a standard upon receiving a request.

In addition, the Order requires that if pipelines are requesting an extension of time or a waiver, the pipeline must include a table in its transmittal letter identifying the standard for which the waiver

or extension of time was granted, and the docket or order citation to the proceeding in which it was granted.⁷ In accordance with that decision, Northwest submits the following table:

5.4.17, 5.4.20, 5.4.21, 5.4.22, 5.4.23			Version 3.1
			Version 3.2

Northwest continues to include a reference to these NAESB WGQ Standards for which it has previously been granted an extension of time, following the suggestion in the “Sample Tariff Record” published by the Commission, at the end of Section 26.1 of the GT&C. Section 26.1 contains a list of the data sets, as identified in the table above, that have not been developed by Northwest as a result of the extensions of time that have previously been granted by the Commission. In the event that the Commission does not continue to grant the extensions of time to implement the standards as it has previously done, Northwest will file to modify this section in compliance with Commission requirements.

Filings Pending Before the Commission

In compliance with Section 154.204(f) of the Commission’s regulations, Northwest states that it has no other tariff filings pending before the Commission that may significantly impact this filing.

Effective Date and Waiver Request

Northwest hereby requests that the proposed tariff records submitted herein be made effective August 1, 2025. In accordance with the provisions of Section 154.7(a)(9) of the Commission’s regulations, in the event the Commission elects to accept and suspend the tariff records for a minimal period, Northwest moves to place such tariff records into effect at the end of the applicable suspension period.

Materials Submitted Herewith

In accordance with Section 154.7(a)(1) of the Commission’s regulations, the following material is submitted herewith:

An eTariff.xml filing package, filed as a zip (compressed) file, containing:

- (1) The tariff records in RTF format with metadata attached;
- (2) A transmittal letter in PDF format;
